ANOTHER CHILD DIES FROM BURNS

Beatrice Yoost. Only Daughter of Mr. and Mrs. Charles Yoost of Two Taverns, Dies Twelve Hours after Accident.

Beatrice Yoost, the three year old daughter of Mr. and Mrs. Charles A. Yoost of near Two Taverns, died at four o'clock this morning from severe burns which she received on Wednesday afternoon.

The little girl was sitting behind the stove in her father's store when her mother went outside. The stove contained only a very small fire so that it is not believed her clothing could have caught in that way. It is possible that she may have been playing with matches and that is the only theory of the cause of the distressing accident which is now held.

When the mother returned she found her little daughter completely enveloped in flames. She succeeded in putting out the fire and Dr. A. C. Gettier, of Littlestown, was summoned. The father was in Gettysburg at the time.

Dr. Gettier and the family and friends did all in their power to save the life of the child but their efforts were unavailing and at four o'clock this morning death resulted.

Beatrice Yoost was the only child of her parents and the large number of friends which the family has in and about Two Taverns sympathize greatly with them in their distress.

This is the second child to meet death through burning in the county within a week.

OUR POPULATION HAS DECREASED

Adams County's Population One Hundred and Seventy Seven Less than Ten Years ago. Pennsylvania's Big Increase.

A special dispatch to The Times from E. Dana Durand, Director of the Census, this afternoon gives the census of Adams County taken this year as 34319. This is a falling off of 177 from ten years ago when the figures were 34496. The census of 1890 gave Adams County 33486.

Gettysburg's census has not yet been compiled but will be given out within the next few weeks. The Times has made arrangements to receive this immediately after it is announced.

By figures given out this afternoon Pennsylvania's population has increased almost a million and a half in the last ten years, the figures being:

1910—7665111

1900—6302115

1890—5258014

SHOT DEER WITH SMALL BALL

The last few hours of the deer season brought some trophies to hunters.

Elmer Shockey, Beartown, went into the mountain, Tuesday, notwithstanding the disagreeable weather conditions and shot a 10 prong buck, weighing 190 pounds, not far from the Bailey dam. It is one of the largest of the season. Mr. Shockey is not able to have the hide tanned or the antlers mounted and will sell them.

R. Roy Bushman, son of S. S. Bushman, living at the head of Falling Spring, shot a buck, Tuesday, that weighed 125 pounds and had two prongs. He was in the South Mountain, hunting, when he came across the animal and killed it with a single ball from a sixteen gauge shot gun, which required a steady nerve and displayed good marksmanship.

Charles Woodward, of near Arendtsville, killed a fine two pronged buck Saturday on South Mountain. It weighed 135 pounds. This is the sixth successive year in which Mr. Woodward has killed a buck. It is his seventh deer in eight years.

FOGLE-BOOSE

TEACHERS HEAR NEW PRESIDENT

Dr. Granville, President of Gettysburg College, Addresses Adams County Teachers. Other Instructors' Talks.

The Wednesday afternoon session of the Institute was a long one for the teachers and the many others who attended but all were treated to four excellent addresses, three by the regular instructors and the fourth by President Granville of Gettysburg College.

Dr. Granville's subject was "Primitive Number Systems" and he told in an interesting way of the manner in which various uncivilized peoples count. Many of them, he said, can count no more than two. Many others never get above five. The methods used were told at length and, by means of blackboard work, Dr. Granville pointed out several systems of counting.

The other addresses of the afternoon were by Dr. Gordinier on "Mythology," by Dr. Ellis on "The School and Society," and by Dr. Willis on "Great American Debates."

The evening entertainment was given by three New Zealanders who by means of the stereopticon, by lecture and song told of the rapid advancement of their people, of their customs and life. The entertainment proved very enjoyable to the large audience.

This morning the lectures were given as outlined on the program. Dr. Ellis' subject was "Louis Agassiz," Dr. Gordinier's "The Mother Tongue," and Dr. Willis' "Alexander Hamilton." Before the regular session Dr. Gordinier addressed the rural teachers on "The Country Schools and Country Life."

The last evening entertainment of the Institute will be given this evening when the attraction will be the International Sextette.

The Boy Is Thinking of That New Sled. Get It Now!

MRS. JOHN PETERS

Mrs. John Peters died at her home at "Woodview" in Huntington township, on Monday morning after a lingering illness, aged about 69 years.

She was the eldest daughter of the late Earl Haskell, of Uriah, and is survived by her husband, two sons and five daughters as follows: Earl, of Carlisle; George, of Pittsburg; Mrs. W. S. Adams, of Mt. Tabor; Mrs. Fred Putney, of Shamokin; Miss Damaris Peters, of New York; Mrs. Foster Ainsley, of Birmingham, Alabama, and Miss Elva Peters at home.

Mrs. Peters is also survived by a brother Harrison Haskell, of Carlisle, and a sister, Mrs. Elmina Hartzell, of Harrisburg.

The funeral services were held Wednesday morning from her late home and were conducted by Rev. L. M. Gardner and Rev. Fred Goeller, of York Springs. Interment was made in Mt. Holly cemetery.

FINE ATTRACTION

"The Wolf" in Walter's Theatre Wednesday evening was one of the best plays which local theatregoers have ever had the privilege of seeing in Gettysburg. The play is strong, the cast thoroughly competent and the stage settings thoroughly in keeping. A number of exceptional scenes were well worked out and throughout the entire evening the interest of the audience was held tense, a bit of fun now and then adding to the pleasure of the play. The company was brought by special train from Harrisburg, connections having been missed at that point because of a wreck. From here they went to Lewistown. Manager Walter deserves to be congratulated upon securing the attraction.

PLACING BLAME FOR BIG WRECK

Engineer and Conductor who Figured in Edgemont Wreck on Trial in Hagerstown. Bad Engine Diverted Attention.

Charles B. Eichelberger, engineer of the east bound Western Maryland train which was wrecked at Raven Rock bridge near Edgemont last August, is on trial in Hagerstown on a manslaughter charge, five lives having been lost in the wreck.

Engineer Eichelberger and Conductor Louis S. Hopwood were indicted jointly, but their counsel asked for separate trials.

The Eichelberger case occupied the court all day Tuesday and Wednesday. The Hopwood trial will follow.

It was in evidence that at Chews ville Conductor Hopwood got orders to pass west bound freight 627 at Smithsburg. The same order was delivered to the crew of 627 at Highfield. Hopwood gave the orders to Eichelberger. Train 304, containing 11 or 12 cars, passed Smithsburg and proceeded toward Edgemont.

Attorney Mason for Eichelberger, stated that Eichelberger forgot the order and said a shortcoming of the intellect did not constitute a crime. He read from legal authorities to substantiate this contention and cited decisions upon railroad cases similar to this one to bear him out.

The engine Eichelberger had was not a good one. It did not steam well, the injector was not in good working order and something was wrong with the lubricator. These things distracted his attention from the train orders. All the members of the crew got the same orders and when they found they had passed Smithsburg they should have notified Eichelberger. At Smithsburg a signal was displayed directing the train to proceed east. The case has gone to the jury.

Nature's Hair Restorer

WYETH'S SAGE AND SULPHUR HAIR REMEDY
One Great Reason Why
This Great Hair Beautifier and Color Restorer
Produces Such Remarkable Results
Sulphur is a Natural Element of the Hair
When there is not a sufficient amount of sulphur in the hair, it loses its life, color and strength, turns gray, and falls out. There are many forms of sulphur, but only one kind that is suitable for treatment of the hair and scalp, and that is the kind used in preparing WYETH'S SAGE AND SULPHUR HAIR REMEDY.
We Have the Secret, and We Give You the Benefit of It at an Exceedingly Low Price
For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair, and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

AMERICAN TARS DROWN
Seven Lose Lives When Boat Is Swamped Off French Coast.
Cherbourg, Dec. 1.—A fierce gale is raging along the coast and the battleships of the second division of the United States Atlantic fleet have been forced to stand off shore under full pressure.
It is reported that an American picket boat has been sunk and seven men lost.
A launch from the battleship Louisiana made a gallant rescue of the crew of a launch from the French armored cruiser Duplex, which was swamped by a launch from the heavy seas. Many of the American bluejackets are ashore, being unable to get back to their ships.

SHOT AT SICK CHILD
Man, Infatuated With Fifteen-Year-Old Girl, Tries to Kill Her.
Buffalo, N. Y., Dec. 1.—Leo Gerow, 31, aged twenty-three, madly infatuated with Helen Furman, aged fifteen, tried to kill the child as she lay dangerously ill of pleurisy in her mother's home.
He had entered the room and tried to kiss her, and she shoved his face away. He drew a pistol and fired four shots, all of which went wild save one, which grazed the child's temple. The last shot in the gun he sent into his own temple, and he will die. The girl will recover.

ACTRESS ACCUSED OF ABDUCTING BOY
Mother of Three Children in Love With Lad.
Utica, N. Y., Dec. 1.—Mrs. Maria De Amorice, thirty-three years old, an actress from Youngstown, O., who was arrested in Buffalo on the charge of abducting Angelo Ferdinand, aged fifteen years, of this city, with whom, it is claimed, she is in love, was brought to Utica to answer the charge which has been made by the young lad's mother. The boy was also brought back a prisoner, charged with vagrancy.
When the actress and the boy were arrested in Buffalo the latter was disguised as a woman, but spoiled the disguise because he did not know how to walk in the high heeled shoes the actress had bought for him to complete his disguise.
This is the second time, it is said, that Ferdinand has run away with the woman.
Mrs. De Amorice told the police that she is a widow with three children, the eldest of whom is fourteen years old and the youngest eight.
"I am not to blame for this boy running away from home. It was only because I am sorry for him and wanted to get him from his brother, who has been unkind to him, that I offered him a position as piano player in a theater in Youngstown where I sing," said the woman.

Dies to Spite Wife.
Williamsport, Pa., Dec. 1.—Enraged because his wife would not give him money with which to continue his spree, Robert A. Brown threatened to kill her, at Laquon. Then he ran and jumped on a passenger train on the Susquehanna & New York railroad, keeping out of sight between the baggage car and tender. Seven miles on the line, at the next station, Brown was found dying. He had swallowed carbolic acid. He died in less than a half hour.
Blizzard in Michigan.
Traverse City, Mich., Dec. 1.—Passenger train service is delayed from one to two hours and on some branch lines is entirely blocked by the first blizzard of the season. One foot of snow fell in this city. The steamer Missouri is in shelter at Suttons bay.

LAWSON'S CLERK A SUICIDE
J. F. Donahoe, Former Confidential Clerk, Leaps Under Train.
Boston, Dec. 1.—John F. Donahoe, of Lynn, for twelve years a confidential clerk in the employ of Thomas W. Lawson, the financier, committed suicide by jumping in front of an electric train of the Boston Elevated Street railway in the Washington street tunnel. The cause of the act is unknown.
Donahoe, who was sixty years of age, became prominent in 1908 by suing Mr. Lawson for \$250,000 for services which he claimed included the arrangement of dealings between his former employer and former Senator W. A. Clark, of Montana; J. Edward Addicks, of Delaware; F. Augustus Heinze and the late Henry H. Rogers, of New York.
Donahoe claimed also to have delivered to Lawson the books of the Bay State Gas company, of Delaware, and the books and stock of the Bay State Gas company, of New Jersey, at the time of the receiverships, thus, he alleged, enabling Lawson to force the terms of settlement with Mr. Rogers in the Boston gas war.
Donahoe claimed further that as a representative of Lawson he had launched several theatrical enterprises and that he had arranged meetings in New York between Lawson and many men prominent in the financial world. The case, it is understood, was set tied out of court a short time ago.

"HELLO BILL" SAYS "DEAD" FARMER
Cold Feet Felt Like Corpse, But He Fooled Coronor.
Burlington, N. J., Dec. 1.—Returning, apparently from death, to take part in an argument as to which coroner should take charge of his body, a Burlington township farmer named Buzby gave a crowd in the Metropolitan hotel a thrill they will not soon forget.
Buzby had been found, lying face downward and apparently lifeless, at the rear of a public room of the hotel.
Dr. J. B. Cassidy and other physicians were hurriedly summoned. For five minutes they worked over Buzby, but with no visible signs of success. A relative who was present gave him up for dead and telephoned for a local undertaker. Some one suggested that, owing to the strange nature of his demise, a coroner should be summoned.
A discussion at once broke out as to whether Coroner Bisling was yet in office or whether Coroner-elect Leconey had succeeded him. The argument waxed warm and was at its height when the supposed corpse suddenly sat up on the stretcher, rubbed his eyes and to one of the startled on-lookers exclaimed:
"Why, hello, Bill, what am I doing here?"
Then he relapsed from the exertion, but the physicians, encouraged, worked over the farmer until he had again regained consciousness and was apparently out of danger.
The doctors in attendance say his case is one of the most remarkable on record. They declare there was a total cessation of respiration and pulse for at least five minutes and that the extremities of his body had begun to chill when the seemingly hopeless remedies dragged him back from death. The farmer was later removed to his home and his recovery is expected.

GIRL'S VENGEANCE
Attacks Uncle With Hatchet and Nearly Kills Him.
Pittsburg, Dec. 1.—Joanna Slara, the eighteen-year-old belle of the little mining hamlet of Brunella, while attempting to avenge a wrong done her by an uncle, Ubaldo Slara, so terribly gashed the latter's head with a hatchet that his life is despaired of.
Seeing that life still remained in the victim of the girl, a number of her countrymen attempted to complete her work by lynching him. He was rescued and landed in the hospital, where he is expected to die. No attempt was made to arrest the girl.

Wants a Balloon Ride at 91.
Spencer, Mass., Dec. 1.—Mrs. Lucy Belknap Baldwin, who is ninety-one years old, says she is confident she will go up in a balloon before she dies. It is her one ambition now, she told her friends at her birthday reception. She has seen the coming of the locomotive, the steamboat and the automobile, and before she dies she wants to ride in an air vehicle.

GOOD NEWS
Many Gettysburg Readers Have Heard It and Profited Thereby.
"Good news travels fast," and the thousands of bad backsufferers in Gettysburg are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back had no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:
Mrs. H. H. Ridinger, 25 Brockbridge St., Gettysburg, Pa., says: "I can endorse Doan's Kidney Pills just as highly today as I did two years ago when I publicly told of their merits. A member of my family was afflicted with backache and at night often had to get up and sit in a chair. The kidneys were weak and there were severe pains throughout the body. Doan's Kidney Pills were finally procured at the People's Drug Store and they brought relief from the first. As their use was continued, a great improvement was noticeable. I was led to try Doan's Kidney Pills by this person's experience and I am glad to say that I received relief from disagreeable symptoms of kidney trouble that had clung to me for some time. I cannot give Doan's Kidney Pills more praise than they deserve."

What a Small City's Civic Club Has Accomplished.
Over the United States small towns are realizing that they, as well as the great cities, have social and civic conditions and problems which call for a rally of citizenship and community action. How much can be quickly accomplished in a small city is shown by the work of the Civic club of Cumberland, Allegany county, Md., which is only a year old.
The direct work has been done by the women, but the men have risen to the club's suggestions and are turning to it for help in a surprising number of cases, says the Survey. The major part of the meat dealers petitioned for the club's co-operation in doing away with insanitary conditions of sale from wagons. The city officials were interested to co-operate in removing weeds. The electric railway authorities have been brought to see the need of a new station and lavatory. The board of health is coming to realize the necessity of locating the slaughter houses more suitably and controlling their conditions.
A committee of merchants petitioned for an area light where disorderly men and women congregated and for the requirement of screens over fruit, meats, etc., exposed for sale.
Unfortunate conditions after dark in a cemetery led to the appointment of a committee to look after the nuisance, composed of members of the church controlling the cemetery. The school authorities have established an evening school this year, and a union of forces has brought about a very successful beginning of playgrounds. During the year a committee of men has put the Cumberland charities upon a business basis.
The Allegany county schools have made great progress during the last few years under the leadership of an efficient superintendent, and their service as social centers is being developed. All these social advances are likely to broaden into a comprehensive study of conditions and further progress in securing civic institutions and social legislation.

PARIS KNOWS THEIR VALUE.
Smooth, Clean Highways and Beautiful Parks Are Profitable to the City.
Paris has accepted unflinchingly the doctrine that smooth and clean highways are a wise investment and that so long as the work is done in a thorough and scientific manner, with an honest and skillful application of means to ends, the result is worth having regardless of cost. The expense of maintaining, cleaning and sprinkling the streets is greater than in any other European city, but the sort of pre-eminence that such a street service helps to secure is profitable to a hundred indirect ways.
Paris has by far the richest park equipment of any city in the world. The area of parks within an afternoon's excursion is 20,000 acres, while farther away are more extensive public grounds, such as Versailles and Fontainebleau. It is impossible to estimate the profits which Paris derives annually from its parks, boulevards and public buildings. Bankers have estimated that Americans spend upward of \$500,000,000 annually in foreign countries, and it is safe to say that Paris receives at least one-fifth of this vast sum, the profits from which are as great as are the profits from pork to Chicago, shoes to St. Louis and beer to Milwaukee.
The experience of Paris ought to convince the most skeptical that there is no modern community of civilized men which cannot afford to provide the most perfect public appointments that technical and scientific knowledge have discovered—well made and clean streets, good water, proper drainage, convenient transit facilities, complete schools and thorough sanitary organizations. No city should think itself rich enough to prosper without them, and no city is so poor that it cannot afford them.—Harvey N. Sheppard in Outlook.

COOK NOT SURE HE FOUND POLE
Confesses He May Have Been Mistaken.
CRAZED BY PRIVATIONS
Says He Was Half Mad on Return From Far North and Doesn't Know What He Did.
New York, Dec. 1.—Dr. Frederick A. Cook, the Brooklyn explorer, in an article which will be published in Hampton's Magazine, confesses that he does not know whether he reached the North Pole or not.
Dr. Cook, who has been in hiding for over a year, has informed the editors of the magazine publishing his tale that he will return to the United States with his wife and children on Dec. 22, in order to spend Christmas here.
Dr. Cook in his tale deals with the psychology of his adventure and says: "Did I get to the North Pole? Perhaps I made a mistake in thinking that I did. Perhaps I did not make a mistake. After mature thought I confess that I do not know absolutely whether I reached the pole or not. This may come as an amazing statement, but I am willing to state the world if, by so doing, I can get an opportunity to present my case."
"By my case I mean not my case as a geographical discoverer, but my case as a man. Much as the attainment of the North Pole once meant to me, sympathy and confidence of my fellow men mean more."
"Fully, freely and frankly I shall tell you everything. Tell me everything—and leave the decision with you. If, after reading my account you say, 'Cook is sincere and honest; half-crazed by months of isolation and hunger, he believed that he reached the pole; he is not a faker,' then I shall be satisfied."
Half Mad, He Says.
Dr. Cook tells the tale of his life and pictures what he calls the overpowering ambition for exploration that beset him until it finally culminated in his effort to reach the pole. Dr. Cook declares that at the time he convinced himself that he had discovered the pole he was half mad. He spent two years in his quest and during that time endured hunger and privation that, he says, would unbalance any mind.
The explorer states that it would be impossible for any man to demonstrate beyond question that he had been to the North Pole. He characterizes the region as a region of insanity, where one cannot believe the evidences gathered by one's own eye. He says that he had always looked upon the discovery of the pole as an achievement for his own personal satisfaction, for the satisfaction of a craving and desire that was greater than any other factor in his life.
When he found how tremendous a sensation his statement that he had attained the pole created, he was overcome with bewilderment.
Tells of His Exile.
Dr. Cook then tells of the days in Copenhagen and later in New York, and of the crisis in his life that led to his flight from New York, and his voluntary exile from the United States. The explorer says that notwithstanding the fact that he was followed by the shrewdest newspaper men in the world day after day and that sums ranging up to several thousands of dollars were offered for a clue to his whereabouts he has never worn a disguise and has never taken any unusual precaution to conceal his identity. Part of the time, he says, his wife has been with him and part of the time his children.
Dr. Cook and his wife are now in Europe and the children are now in a convent in France. Most of the time during his exile Dr. Cook has been in London. He says that he has gone about among Americans there with the utmost freedom and at times has registered under his own name, and that only a few have guessed his identity. Those who did guess it, Dr. Cook says, were turned away with ease by the remark: "Why, yes, I have been told that before."
"I have been called the greatest liar in the world, the most monumental impostor in history," says Dr. Cook. "I believe that in every understandable way I stand unique, the object of such suspicion and vituperation as have assailed few men."
With this realization Dr. Cook wrote his account and says that to him the honor of discovering the North Pole no longer means anything. The explorer has been working on his tale since last August and says, according to the editor of Hampton's Magazine, "that his sole desire is to make the people of the United States realize just what he went through during his two and a half years in the Arctic fastness, and to make them see what processes of thinking—or lack of thinking—it was that led him to do the thing which confirmed to the average mind the worst suspicions against him."

FEATHERS AND EGGSHELLS.
Few realize the importance of a
thermometer to the hatch. It stands
in the same relation to an incubator as
a steam gauge to an engine.
Smoked goose breast sells in the
delicatessen shops of Philadelphia at
85 cents per pound, and gander hams
sell at 30 cents per pound. One whole
goose liver is worth \$1.40. Now help
yourself.
The Y. M. C. A. and the Agricultural
college, Portland, Ore., are doing won-
ders for the advancement of poultry
culture. One thousand boys in Port-
land are taking the course in poultry
husbandry.
A farmer asked us why his hens all
left the nest. We looked into a nest,
and the eggs were so covered with
mites we could hardly see them. The
building was crawling, and we got
crawling full too.
On June 30 1,500,000 cases of eggs
were already stored in Chicago. By
a little hustle most of these 4,500,000
dozens could have been sold to private
trade and the producer been in the ex-
tra profit instead of the trust.
Mites are egg gluttons. They seem
to have a special sense for smelling a
broken egg. In John Bughouse's coop,
where the creepers crawl and cluster,
when an egg is broken they swarm
after the egg and soon gobble it.
It is remarkable how many poultry
raisers keep culls in their flocks. The
simple reason that a runt chicken eats
out of your hand is no reason to let it
live on the profit. Such fowls are like
weeds in the garden and should be
"skotched."
A March Run (Pa.) farmer, wishing
to break a broody, placed her in the
smokehouse. Four days later he was
surprised to find her sitting in a cor-
ner on onions, the green sprouts grow-
ing out through her proud plumage.
Next!
Very fat hens have a hard time to
lay. Fat crowds the ovitduct and re-
tards passage of the egg, and the egg
is sometimes not dropped until the
hen roosts, when her position is espe-
cially favorable. Such eggs are often
soft shelled or malformed.
On June 20 the governor of New
York signed a bill appropriating \$90,
000 for a poultry building. The trust-
ees of Cornell university set aside
a fifty acre site for the edifice and its
necessary poultry houses, runs, etc.
New York will now have the "best in
the world" until some western "show
me state" springs a prize surprise.
In a pen where there were two hens
we placed a lively cockerel as an ex-
periment. Next morning we found
two eggs, one soft shell, under the
roost. The lively male had so chased
the hens that they could not nest, or
fright had scared the eggs out of them.
Eggs from this trio were low in fer-
tility, while a neighboring pen with
male and ten females was extra good.

NEW U. S. STEEL PENSION PLAN

Scheme Also Provides For
Permanent Disability.

TO RETIRE OLD WORKMEN

Employees Fifty Years of Age In Em-
ploy of Company For Twenty Years
Are to Receive From \$12 to \$100 a
Month.

New York, Dec. 1. — The United
States Steel corporation made public
its second plan for the protection of
workmen at times of disability from
injury and in old age. It comes in the
shape of a pension system for long
service.

Judge Gary announced the details
as follows:

Plans have now been consummated,
to begin on Jan. 1, 1911, to pay pen-
sions from the United States Steel and
Carnegie pension fund, which was es-
tablished last spring by the United
States Steel corporation and Andrew
Carnegie.

For this purpose the United States
Steel corporation provided \$8,000,000,
which, with the Carnegie relief fund
of \$4,000,000, created by Andrew Car-
negie on March 12, 1901, makes up a
joint fund of \$12,000,000. This pension
fund is administered by a board of
twelve trustees, through a manager
appointed by the board.

The board of trustees has adopted
pension rules for the administration
of the fund to take effect on Jan. 1,
1911, and to apply to persons who are
in the service of the United States
Steel corporation and its subsidiary
companies on and after that date.

Three Classes of Pensions.

Under the pension rules three clas-
ses of pensions are provided.

First—Pensions by compulsory re-
tirement, granted to an employee who
has been twenty years or longer in the
service and have reached the age of
seventy years for men and sixty
years for women.

Second—Pensions by retirement at
their request, granted to employees who
have been twenty years or longer in the
service and have reached the age of
fifty years for men and fifty years
for women.

Third—Pensions for permanent in-
capacity, granted to employees who
have been twenty years or longer in the
service and have become perman-
ently totally incapacitated through no
fault of their own.

Basis of Pensions.

The monthly pensions to be paid
from the income of the fund will be
made up on the following basis: For
each year of service, 1 per cent of
the average regular monthly pay re-
ceived during the last ten years of
service; provided, however, that no
pension shall be more than \$100 a
month or less than \$12 a month. For
example: An employee who has been
twenty-five years in the service and
has received an average regular sal-
ary of \$60 a month will receive a pen-
sion allowance of \$15 a month.

This pension fund provides for the
support of the faithful employees in
their old age. It is entirely separate
and distinct from the voluntary ac-
cident release plan put into operation
by the United States Steel corporation
on May 1, 1910, which provides for
employees who may be killed while at
work in the service of the subsidiary
companies of the United States Steel
corporation.

Neither the voluntary accident re-
lease plan nor the United States Steel
and Carnegie pension fund involves
any contributions from the men them-
selves toward the accident release or
old age pensions.

BOY'S MIRACULOUS ESCAPE

Whirled For Five Minutes on Factory
Fly Wheel.

Shenandoah, Pa., Dec. 1. — Joseph
Botanas, sixteen years old, had an aw-
ful experience and a miraculous es-
cape from death at Maple Hill col-
liery.
He was through his work for the
day, and as he was passing rapidly
revolving machinery his clothing was
caught in a belt, whirling him in space
from one fly wheel to another for
about five minutes before his agonizing
cries were heard and the machinery
was stopped. Strange to say, he is only
slightly injured.

Colonel Bell Dies From Exposure.

Washington, Dec. 1. — Lieutenant
Colonel James F. Bell, inspector gen-
eral of rifle practice for the National
Guard of the District of Columbia, at
one time one of the best marksmen in
the country, is dead at his home here.
Exposure at the military rifle contests
at Camp Perry, Ohio, three months
ago, complicated by intestinal trouble,
caused his death. He was sixty-five
years old.

\$150,000,000 Mortgage.

New York, Dec. 1. — Stockholders of
the Oregon Short Line Railroad com-
pany at a special meeting in Salt Lake
City authorized the creation of a mor-
tgage to cover \$150,000,000 of bonds.
This action is a formality in connec-
tion with plans of the Union Pacific
Railroad company recently announced.
No part of the new issue is proposed
to be sold at this time.

She Probably Could.

Senator La Follette, apropos of cer-
tain scandals, said at a dinner in Mad-
ison: "These things recall the legisla-
tor who remarked to his wife with a
look of disgust, 'One of those land
lobbyists approached me today with
another insinuating proposition.'
"The wife, a young and pretty wo-
man, clasped her hands. 'Oh, good!'
she cried. 'Then I can have that sable
stole, after all, can't I, dear?'"

LORD ROSEBERY.

Denounces Men Fighting English
Lords.

ROSEBERY FLOPS FROM HIS PARTY

Former British Premier De-
fends Tories.

Manchester, England, Dec. 1.—Lord
Rosebery, once Liberal premier of
England, jumped the barrier heretofore
separating him from the Tories at a
meeting of business men which he
had been invited to address along non-
partisan lines.

Although disclaiming all political
bias, he roundly trounced his former
Liberal allies, who, he declared, were
harassing the land, constantly en-
croaching upon and prejudicing the
personal liberties of the country in a
way to which their ancestors never
would have submitted.

Nothing but a nation of slaves, de-
clared the former premier, would sub-
mit to Irish dictation subsidized by
foreign gold.

Loud cries of "Twaddle!" "Rot!"
"Bosh!" greeted this outburst, but
Rosebery continued, asking what the
effect would have been if foreign gold
had been taken into the United States.
"Why," he said, "the people who did
it would irrefragably be damned."

The liberties of the people were fur-
ther endangered, the speaker said, by
the government's proposal for a sin-
gle chamber of government. Behind
the government was visible the giant
specter of Socialism, waiting until the
barrier of the second chamber was out
of the way.

Under the proposed veto bill, noth-
ing would prevent the government
from abolishing the house of lords
without interference from any quarter
whatever.

Continuing, Lord Rosebery said that
great stress and care had been exer-
cised by the United States to safe-
guard the American constitution.
"Without any doubt," he said, "the
United States is the greatest democ-
racy in the world. Do you suppose
that the United States would put a jot
or tittle of their constitution to the
hazard of a snap election?"

POSSE RIDDLES NEGRO

Mack Neal Pursued by Officers and
Put to Death.

Norfolk, Va., Dec. 1.—Mack Neal, a
negro, who shot one person to death
and wounded four others, is reported
from Waverly, the scene of the
shooting, was riddled with bullets by
a posse that surrounded the negro.
Neal fired eleven times through a
window of a house occupied by Anna
and Etta Johnson, killing the former
and badly wounding the latter, and
Paul Brown, who was in the house at
the time.

While hiding from the posse, Neal
fired upon Leslie and "Spooks" Jack-
son, boys on their way to work. Both
were badly hurt. The ambushed attack
on the boys was unprovoked.

Minnesota and Tennessee Grow.

Washington, Dec. 1.—The population
of the state of Minnesota, according to
the census bureau, is 2,075,708, as
compared with 1,751,394 in 1900. This
represents a gain of 18.5 per cent. The
gain in the decade from 1890 to 1900
was 34.5 per cent, the population in
1890 being 1,301,825.

The population of the state of Ten-
nessee is 2,184,789, as compared with
2,020,616 in 1900, a gain of 8.1 per
cent. The gain in the decade from 1890
to 1900 in this state was 14.3 per cent.

No Cut in Steel Prices.

New York, Dec. 1. — The price of
steel will not be cut. Forty of the
leading producers and their represen-
tatives, who stand for approximately
95 per cent of the production of the
country, met here and decided that it
was for the good of the industry to
keep quotations where they are now.

Cuts Off Baby's Finger.

Upper Sandusky, O., Dec. 1.—White
Mrs. Job Smith was holding her six-
months-old daughter in her lap her
two-year-old daughter cut off one of
the baby's fingers with a pair of scis-
sors.

Truth is of no value unless it is ex-
emplified in conduct.

CONFESSES TWO MORE MURDERS

Slayer Admits Killing Woman
and Toll Gate Keeper.

CLEARs INNOCENT MAN

Under Sentence of Death, Prisoner
Clears Up Two Murder Shrouded
Mysteries.

Pottsville, Pa., Dec. 1. — Joseph
Christock, the confessed murderer of
Mrs. Mary Richards, at Auchey's Sta-
tion, two weeks ago, who is now in
the Schuylkill county jail under sen-
tence of death, has confessed to two
other murder committed by him.

A formal statement from him to this
effect will be taken before the week is
out.

Among the murders to which Chris-
tock now confesses is that of Mrs.
Arthur Morrison, a young woman of
Cumbola. This took place five years
ago. Mrs. Morrison was found with a
bullet in her body, dead in bed, by the
side of her babe and husband.

L. A. Reed was district attorney at
the time, but could find no trace of
the murderer. Tracks were discovered
in the snow, which were evidently
made by the murderer, but beyond
this no clew was found.

Innocent Husband Suspected.

The husband could give no very
clear account of the affair and for a
time was unjustly suspected. The fact
that the couple were on excellent
terms and that the husband had al-
ways treated his wife with the utmost
consideration, refuted the theory that
he had anything to do with the foul
deed.

Christock says that Mrs. Morrison
awoke while he was trying to rob the
house and he simply shot her dead to
leave no witness behind. Christock's
parents lived at New Philadelphia at
the time of the commission of the
crime, only a short distance away from
the scene of the murder. He tells the
story of the deed with all the circum-
stantial details, which fits exactly into
the known facts of the murder. Chris-
tock was nineteen years old at that
time.

Another murder to which Christock
confesses is that of a tollgate keeper,
and in this, as in the other crime he
mentions, he gives full details, but the
name is withheld by the authorities.

On the witness stand in court two
weeks ago Christock gave what he
said was a full history of his life. He
confessed to many petty thefts and
robberies, but said nothing of being
engaged in the commission of other
murders. His whole story led up to
the murder of Mrs. Richards, whom he
shot dead, right through the heart, as
a climax.

Experienced criminal lawyers, who
observed Christock's coolness and
matter-of-fact demeanor on the witness
stand and the deliberateness with
which he said he killed Mrs. Richards,
and beat her daughter into uncon-
sciousness, expressed the opinion at
the time that Christock had been in
more serious affairs than he confessed
to in court.

Christock's confession to additional
crime will make no difference in his
sentence, nor will it postpone his ex-
ecution. A formal confession will be
obtained from him merely to clear up
the crimes, which have always been
shrouded in mystery.

It may be two or three weeks yet
before Governor Stuart sets the date
of execution and signs the death war-
rant. Christock is now losing his nerve
and the authorities predict that he
will have to be carried to the gallows.

BRIDE SWALLOWED A FILE

Drag Basin For Missing Woman's
Body, But Find No Trace.

Richmond, Va., Dec. 1.—After telling
her husband, H. B. Brown, a young
merchant, that she had swallowed a
nail file, Mrs. Jeannette Brown, twen-
ty-three years old, asked him to call a
doctor.

The physician said that it might not
prove serious and advised her to take
a walk in the open air.

Mrs. Brown left the house and has
not been seen here since. Her hat was
found floating on the surface of the
water in the city reservoir and her
umbrella on the steps of the embank-
ment nearby. The basin has been
dragged, but without result, and the
water is now being drained from it.
This will require about four days.

Think Athlete Was Murdered.

Cincinnati, O., Dec. 1. — Edward
Wainwright, of Hanover, N. H., star
halfback on the Dartmouth college
football team of 1900, was found un-
conscious in an alley in this city and
died while being removed to a hospi-
tal. There was a gash four inches in
length over his left eye, and this is
believed to have caused his death. The
friends of Wainwright believe he met
with foul play, but the police think
his death was due to an accident.

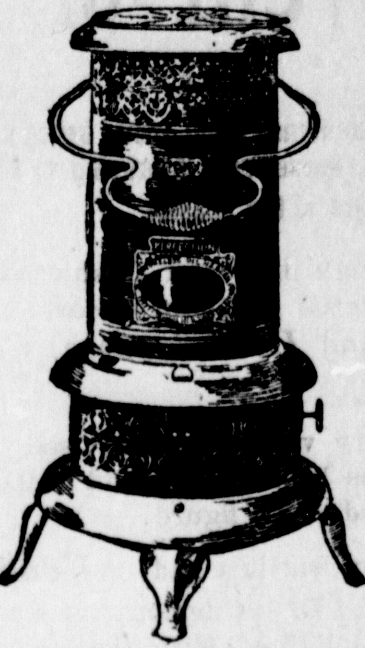

"Jem" Macé, Former Champion, Dead.

London, Dec. 1.—"Jem" Macé, the
hero of many prize fights, died at Jan-
now-Tyne, of old age. He was in his
eightieth year. Macé was at one time
worth more than \$1,000,000, but of re-
cent years he had been dependent on
friends. Occasionally he had appeared
in music hall exhibitions.

Civic Improvement Trip.

The state department of agriculture
in Texas recently secured the services
of D. H. Hemenway, a Massachusetts
man who has become an authority on
school gardens, for an educational
campaign of a month or more. Mr.
Hemenway traveled from town to
town, speaking on school gardens, the
home beautiful and civic improve-
ment. For the most part his lectures
were illustrated. The interesting fea-
ture of the news is that this mission-
ary journey was taken under the aus-
pices of a state department.

Dry Your Clothes on a Wet Washday With a New Perfection Oil Heater

When clothes can't be hung
outside, and must be dried in a
room or cellar, the New Perfection
Oil Heater quickly does the work
of sun and air. You can hang up
the wet clothes, light your Perfection
Oil Heater, open the damper
top, and the heat rises and quickly
dries the clothes.

Do not put off washing to
await a sunny day in order to avoid
mildew. Dry your washing any

SMOKELESS
OIL HEATER**

Absolutely smokeless and odorless

It gives just as much heat as you desire. It is safe, odorless
and smokeless.

It has an automatic-locking flame spreader, which
prevents the wick from being turned high enough to smoke,
and is easy to remove and drop back, so the wick can be quickly
cleaned. Burner body or gallery cannot become wedged, be-
cause of a new device in construction, and can always be easily
unscrewed for reworking.

An indicator shows the amount of oil in the font. Filler-cap does not need
to be screwed down, but is put in like a cork in a bottle, and is attached to the
font by a chain. Finished in Japan or nickel, strong and durable, well-made, built
for service and yet light and ornamental. It has a cool handle and a damper top.

The Style Event of the Season

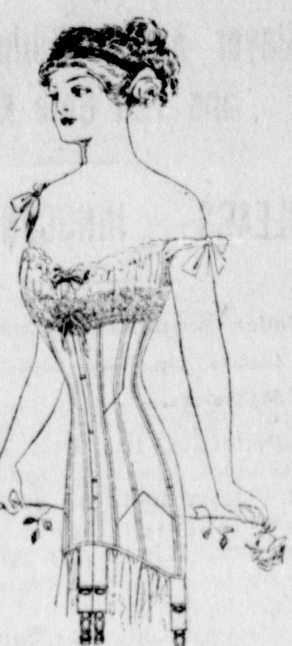

THE corset demonstration now being conducted by Miss Darnell, corsetiere, is proving to be one of the most notable events of the season.

Many distinguished and fashionable women have examined the splendid assortment of new **Henderson and La Princesse Corsets** on exhibition.

Almost every visitor has advised with Miss Darnell, and has been shown and fitted with the corset best suited to her figure.

Every woman who has had a **Henderson or La Princesse Corset** demonstrated has been surprised and delighted with the effectiveness of these models. The rounded, natural bodice effect and trim, slender figure lines showing very slight waist curves, are accurately, hygienically produced with these modern, individualized corsets.

HENDERSON Fashion Form Corsets

You are cordially invited to visit our corset department and consult with Miss Darnell. You will be interested in examining the selected assortment of **Henderson and La Princesse Corsets** we are showing, and note the wide range of popular prices which we are quoting for these models.

A Chance to Make Money.

A young man who had been out of employment for some time and to whom money had become a stranger stood on the Walnut street bridge over the Schuylkill gazing down at the water.

Suicide was in his mind, but he was afraid to seek death by drowning and only contemplated it when he realized that he had no money to purchase poison, a rope or something of the sort.

As he was standing there a well dressed man accosted him.

"Young man, do you want to earn \$4?" he said.

"Four dollars?" gasped the unfortunate, to whom the sum sounded like a million. "Lead me to it," he said.

"Come along," said the stranger as he led the way across the bridge.

The young man followed, a new hope gleaming from his eyes.

The stranger led the way to a room on a side street off Walnut.

"Here we are," he said.

"Well, how am I going to earn those \$4?" asked the young man.

"Well, you see, I'm a little hard up for cash," said the stranger, "and I'm going to sell you a pair of five dollar shoes for a dollar!"—Philadelphia Press.

The Carrot Cure.

Dr. Oliver Wendell Holmes, referring to the true efficacy of carrots as a cure for wounds (a tradition which was certainly not handed down from Crete), writes to Dr. Hunt in 1882 telling him how a man's leg, which was severely wounded at the battle of Fredericksburg, was treated by Dr. Bigelow, who did nothing but keep the wound open and made the patient use for this purpose a little plug of carrot, which seemed to agree with him very well.

Another more modern medical authority says that for delicate persons an excellent supper vegetable is a fair sized carrot, boiled whole so as to retain its aromatic properties, then split into quarters and warmed afresh before being served hot. It acts as a nerve sedative while being cordial and restorative. A sense of mental invigoration will follow, and the digestion of this estimable root will be readily performed without preventing sleep.—Pall Mall Gazette.

Judged by Appearances.

When we meet a man whose face looks frank and whose talk is fair and a woman whose face is frank and whose face is fair we are attracted to them. It is the same with stores. We like frankness and fairness on the face of them. The world, you and I as well as the rest, is prone to judge by appearances.

AFTER EFFECTS OF THE GRIP

It is fortunate that the Grip epidemic this year is milder in its action than in previous years. This does not mean that it is less dangerous.

The after results of the Grip are apt to be exceeding serious. Do not take any chances,—for the general weakness, and to allay all bronchial irritation after the fever has passed, nothing equals Vinol, which is a delicious combination of the health giving properties of the cod's liver, with the grease eliminated and tonic iron added.

A lady from Long Branch, N. J., writes:—"The Grip left me in a nervous, weakened, rundown condition. After taking three bottles of Vinol I am better and stronger than I have been for years, and I cheerfully recommend Vinol to all who have been ill and need strength." (Name furnished on request.)

After Grip or any severe illness try a bottle of Vinol with the understanding that your money will be returned if it does not restore your vitality and strength. People's Drug Store, C. Wm. Beales, proprietor, Gettysburg, Pa.

Newly devised methods of municipal bookkeeping will save New York city half a million annually.

China holds the world's record in the way of executions. There are at least 12,000 legal executions yearly.

Cold storage plants of the United States have a total refrigeration capacity in excess of 200,000,000 cubic feet.

Only thirty years ago Japanese soldiers wore huge grotesque iron mask helmets in order to frighten the enemy.

A very expensive effort was made by Spanish capitalists about forty years ago to popularize bullfighting in London.

Machines are used in Sicily for extracting the oil from lemon rinds. Each machine is capable of dealing with 8,000 lemons a day.

The baby that is born in Buenos Aires has a better chance of living than if it had been born in any other of the world's large cities.

Besides Great Britain, the countries which have old age pensions are Denmark, France, Belgium, Germany, New Zealand and Australia.

It would take nine and a half days for the armies of Europe to pass a given point, marching five abreast, fifteen inches apart, at an eight mile gait.

Coal vessels from Wales can reach Rouen, in France, discharge cargo, return to Wales, load and reach dock again at Rouen in a period of eight days.

Emigration from Ireland is increasing again after the low record of last year. For seven months the movement has included nearly 3,000 persons a month.

The heightening of the Assuan dam is expected to occupy six years in all and to increase the annual value of the Egyptian cotton crop by between \$15,000,000 and \$20,000,000.

The manufacture of steel tubing has grown until today such tubes constitute one of the large divisions of fundamental forms comparable with rails, plates, structural shapes and rods.

At present only 50 per cent of the population of Turkey under the most flattering estimate can read and write. About 5 per cent of the total number of boys and 1 per cent of the girls in the country attend school.

India is the greatest cane sugar producing country in the world. The annual crop exceeds 4,000,000 tons. Most of it is consumed in an unrefined state because of its adaptability for native sweetmeats and native cookery.

Nagasaki is the oldest port in Japan, where the first foreigners, Portuguese merchants, landed 326 years ago. It is one of the five most important ports of the country. The largest vessels in the world can anchor in its spacious harbor.

The consumption of coal in the United States is more than twice as great as that in any other country and nearly equals the combined consumption of the United Kingdom, Germany, France and Belgium and is actually greater per capita than in the United Kingdom.

Mrs. Lillian Stone in a suit against her husband for the support of their child testified in a Chicago court that \$50 a week is the proper cost for a seven-week-old baby. Her husband is worth half a million. All the lawyers present were bachelors, and after court they promptly formed a bachelors' club.

It was proposed at the recent meeting of the International cremation congress in Brussels to work for laws to establish a crematorium on all ocean passenger steamers. The cremation movement was started in Italy in 1876, and now there are 133 crematoriums in the world. In 1909 13,000 bodies were cremated.

Not every creature can swallow another bigger than itself, but there is a little water snake at the New York aquarium that does this handily. This water snake is a foot and a half long and about as big around as a big lead pencil, say a scant five-sixteenths of an inch in diameter, but it will corner and capture a killifish an inch and a half long and close to half an inch in diameter and gulp it down whole easily.

When the Cincinnati authorities investigated the premises of Edward Flynn, a seventy-six-year-old hermit living near the city, they found four horses that he had kept as pets. Two of them thirty-three years old. None of them had ever been in harness. One horse has never been out of the stall that it was born in seventeen years ago. The humane officers demand that the horses be allowed to run at large.

Much significance was attached to the launching recently of the tank steamer Currier at the Fore River shipyards in Quincy, Mass. Many larger and more costly vessels have been built by the concern, including a number of United States war vessels, but the Currier is the first vessel built in the Bay State in half a century for foreign trade, and the Cuban company which owns her is planning another vessel for use in the same business between Cuba and the United States.
